

EXHIBIT F

Alex Liegl @alexanderliegl · Aug 1

Just after midnight yesterday the first-ever operational CLR showed up in the @ERCOT_ISO market. That's @LAYER1OFFICIAL !

ERCOT Market Watch

ERCOT-wide Physical Responsive Capability	5652.6	Non-Spinning Reserve From:	
ERCOT System Frequency	60.011	On-Line Generation Resources with Energy Offer Curves	470.8
Total ERCOT Generation	45641.2	Undeployed Load Resources	0.0
Total ERCOT Load	45625.2	Off-Line Generation Resources	642.8
Total ERCOT Wind Generation	4103.6	Resources with Output Schedule	0.0

Responsive Reserve Capacity From:		Available capacity w E/O Curves in the ERCOT System that can be used To:	
Load Resources excluding Controllable Load Resources	1190.5	Increase Base Points in SCED	12153.4
Generation Resources	1145.3	Decrease Base Points in SCED	17194.9
Controllable Load Resources	1.0	Available capacity w/o E/O Curves in the	

Alex Liegl @alexanderliegl · Jul 31

Confirmed by @ERCOT_ISO that @LAYER1OFFICIAL is the first operational Controllable Load Resource (aka virtual power plant) in the entire market!
